

# Invitation to Present

2011 International Bioenergy and Bioproducts Conference

March 14-16, 2011  
Atlanta Hilton  
Atlanta, Georgia

The 2011 International Bioenergy and Bioproducts Conference (IBBC) will include technical presentations, expert panels, case studies, and reports from projects that address the production of biofuels and bioproducts through:

The 2011 International Bioenergy and Bioproducts Conference is co-located with TAPPI's BioPro Expo

- The use of forest and agricultural biomass resources
- Biorefining technology
- Feedstock and harvesting improvements to increase yield and quality of biomass
- Leveraging forest products manufacturing infrastructure

## Presentations are sought in the following areas:

### Technology Track – strong technical papers with a focus on presenting new findings:

#### Biomass Supply and Demand

- Supply Availability Assessments/ Sustainability
- Economic assessments
- Properties of Biomass Materials
- Energy Crop Development
- Developments in Biomass Recalcitrance

#### Biomass Harvesting and Preparation

- Development of specialized harvesting equipment
- Harvesting and Transportation
- Biomass Preparation
- Biomass Pretreatments
- Biomass Feedstock Characterization

#### Advances in Conversion Pathways

- Thermochemical Conversion
- Biochemical Conversion
- Fermentation Conversion
- Developments in Enzyme Science

#### Advances in Bioproducts

- Biofuels
- Biochemicals
- Bioenergy

### Deployment Track – case studies and updates from pilot scale, commercial, and pre-commercial operations

- Biorefineries
- Repurposing the Traditional Pulp and Paper Mill
- Harvesting and Preparation
- Technical Economic Analyses
- Commercial Collaborations for Enabling Technologies
- Project Deployment Issues

### Deadlines and Submission Information

**Abstract Deadline: October 1, 2010**

Abstract Requirements: Abstracts should be no more than 200 words.

**Submission Deadline: October 1, 2010**

Presentations Deadline: February 15, 2011

Submit Abstracts To: [IBBC@tappi.org](mailto:IBBC@tappi.org)

Event Website: [www.bioproexpo.org](http://www.bioproexpo.org)

This year IBBC is co-located with the BioPro Conference and Expo, a new event focused on bringing a large exhibit and technical programming focused on processing biomass. For more information on BioPro Expo, visit [www.bioproexpo.org](http://www.bioproexpo.org).
